18 rue du puits perdu
78770 Marcq

SKILLS

- Driver's license, personal vehicle
- Rigorous
- Numerical data processing
- Teamwork
- Autonomy

LANGUAGES

- French : Native language
- English : C1
- Spanish : B1

SOFTWARE

- Microsoft Office
- Python, C
- Matlab, Simulink
- PLECS
- LaTeX

INTERESTS

- Aeronautics
- Sciences
- Football (recreational)

PROFILE

As a second-year engineering student at ENSEEIHT (Energy program), I would like to specialize in the design and control of electrical machines. Passionate about aeronautics, I am looking for a technical internship of at least 2 months to put my skills into practice in a demanding and innovative sector.

EDUCATION

ENSEEIHT 2025 - 2028
Department of Electronics, Electrical Energy, and Automatics

Preparatory Classes (CPGE PT*) 2023 - 2025
Lycée Chaptal, Paris

High School Diploma (Baccalauréat Général) 2020 - 2023
Highest Honors with Jury's Commendation

EXPERIENCES AND PROJECTS

Seasonal Employee (Fixed-term contract) 2026
G20 Supermarket, Beynes

- During my seasonal contract at the G20 supermarket in 2026, my mission was to contribute to the daily operations of the store.
- I actively participated in stocking shelves, managing inventory, and operating the checkout, demonstrating autonomy and teamwork.
- My dedication ensured a steady supply of products and maintained high-quality customer relations.

Engineering Preparatory Project (TIPE) 2025

- Comparative study of two braking systems.
- Conducted experiments and analyzed results.
- Pair work.
- Numerical data processing.

Personal Project - Glider Pilot License Training 2020

- Introduction to piloting (15 flight hours).
- Learning the basics of visual flight rules.
